Message From Director's Desk

A.K. Aggarwal

*"We Value Outstanding Relationship and Loyalty
with our Customer and Business Associates"*

Vijay Malhotra

Way back in 1992, when Electronic Test & Measurement and IT industry was rather in a infancy stage in terms of quality, service footprint and most importantly support, two seasoned technocrats, A.K. Aggarwal and Vijay Malhotra with the clear and vivid vision of offering carefully benchmarked cost effective quality products and solutions, coupled with unprecedented support system, took a leap with the inception of the revolutionary and promising idea, giving birth to Agmatel.

Agmatel is a reliable and trusted IT solution provider. We provide End to End IT, Electronic test and Measurement & Telecom Test solutions for Government, Defense, Paramilitary, Education and Enterprise markets. Our business philosophy is to enhance our customer efficiency by transforming their IT through simplification, modernization and innovation. We strive to understand clients needs, identify, integrate and support high quality cost effective reliable and efficient solutions.

Agmatel progressed with rapid expansion going PAN India with presence in all major cities across India and subsequently overseas in Singapore with highly competent human capital of over 100 plus committed professionals with annual turnover of Rs. 250 crores. With the continuous endeavor of delivering excellence, since inception Agmatel's highly skilled application team has maintained the offering benchmark of product line, quality, service and support which is evident by our track record of numerous satisfied customers base across India.

We believe
in **SOLUTIONS**,
not fixes

IT Infrastructure

Networks

Cyber security

Data Centres

Information Technology Solutions

- **IT Infrastructure** - Compute Devices, Deployment and services from the leading brands suitable for business needs.
- **Enterprise Mobility** - Mobile devices, Tablet PC, iPad and Notebooks required for remote collaboration, deployment with MDM and Security services
- **Data Centres** - Compute, Storage, Networking, Power back up, Precision AC, and Data Security
- **Virtual Desktop Infrastructure** - VDI from leading brands for flexibility and cost efficiency
- **High Performance Computing** - HPC for compute intensive applications like simulation, data analytics Artificial intelligence (AI) and Machine learning for scalable compute power.
- **Unified Communication and Collaboration** - Integration of communication services such as IM voice, mobility features audio, web and VC
- **AV System Integration** - Studio and Conference Rooms
- **Digital signage, Professional Displays and Video Walls** - For advertisement, entertainment and Merchandising
- **Ed-Tech** - Smart & Virtual Class Rooms, ICT, AI, Coding labs, Digital podium, Surveillance
- **Self Service Kiosks and Digital podiums** - Customized Kiosks solutions for Banks, Railways, Airports and Retail
- **CCTV surveillance, Command Control Centres** - AI based cameras and VMS solutions
- **Rugged Compute Devices** - Mil Grade Computers, Laptops/Tablet PC, Phones and HHT
- **Cyber Security Assessment Services** - Vulnerability Assessment & Penetration Testing (VAPT), Product Security, Operational Technology (OT) & Application Security
- **IT Financial Services** - HPFS

Our Technology Associates

The world's premier measurement company

HARDWARE + SOFTWARE + PEOPLE = INSIGHT

Keysight Technologies, a brand new company with over 85 years of electronic test and measurement success under our belts. Founded in 1939 by Bill Hewlett and David Packard as HP, our expertise continued as Agilent Technologies' Electronic Measurement Group. Keysight is 100% focused on helping companies tackle the toughest electronic design, test and measurement challenges through a combination of trusted hardware, innovative software and our own global team of industry experts.

CORE TECHNOLOGY PRODUCTS & SOLUTIONS:

Oscilloscopes | Spectrum analyzers | Network analyzers | Signal sources and analyzers | Logic Analyzers | Digital Multimeters | EEsof | Scope meters | Clamp Meters | Power Supplies | Frequency Counters | Audio Analyzers | LCR Meters | Power Meters | Modular Instruments | Education Test Lab solutions for 5G/6G, EV, Cyber Security & Quantum Computing

Pioneer brand 75+ year leader offering extensive range of products for Soldering/De-Soldering Rework Stations, Programmable Hot-air & BGA Rework Station, Fume Extraction System and Hand Tools etc.

World Leader in Designs, Manufactures of Thermal Imaging Infrared Cameras for law enforcement, aircraft, radiometry, ground-based security, thermal imaging, radar surveillance systems chemical and explosive detection products etc.

DC Power Supplies

DMM 1600X900

Network Analyzer

Signal Generators

Oscilloscope

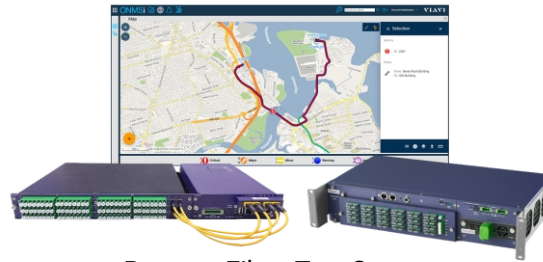

Network Emulators

Spectrum Analyzer

Fiber Optic Test & Monitoring Solutions

Remote Fiber Test System

CONSTRUCTION CERTIFICATION

Accelerate and assure build quality with events identified graphically by fiber

SERVICE ACTIVATION

Simplify installation with remote line test and service birth baselines

ASSURANCE MONITORING

Apply predictive management to avoid outages, SLA penalties and reduce MTTR

RECERTIFICATION & DEMARCATION

Troubleshoot, restore and re-certify for end-to-end service success

IMPROVEMENT & MONETIZATION

Optimize and monetize network assets, designs and processes

VIAVI Solutions stands as a global leader in communications test & measurement, and optical technologies, emerging from the esteemed heritage of JDSU's network and service enablement (NSE) alongside the Optical Security and Performance (OSP) units. Viavi empowers service providers, network equipment manufacturers, and IT organizations in effectively managing data centres and the entire lifecycle of complex 5G and fiber networks by offering intuitive instruments, systems and advanced technologies. Their extensive product range includes offerings like OTDRs, SmartOTU, RFTS / ONMSi, Ethernet testers, Fiber Microscopes, Optical Network testers, Optical Power Meters, Laser Sources, Optical Variable Attenuators, Optical Spectrum Analyzers, PON Analyzers and PNT (Position, Navigation and Timing solutions) among other innovative solutions for critical infrastructure serving both military and civilian applications

Fiber Inspection

OTDR Testing

Production & Lab Test

• Self Service Kiosks • Retail Kiosks • Digital Signage • Digital Podium

Our Free-standing Kiosk are ideal choice for information and transaction suitable for indoor enviroment in all public areas, Railways, Banks, Airports and Retail Malls. These Kiosk are excellent combination of stylish design and robust construction.

Kiosks are extensively used for

- Interactive Information sharing
- Cash/Electronic Payment
- Loyalty Programs
- e-Ticketing
- Check In / Check Out
- Queue Management
- Touch Screen Directories
- Visitor Management
- QSR

Select Models of these Kiosks and Digital Podiums are available on Gem

Quality ...

We are ISO 9001 : 20000 Company. We have comprehensive quality assurance system and infrastructure to ensure that products offered to

our customers are duly inspected before dispatch.

Digital Signage

We offer a complete Suite of Digital Signage product for any application, Hardware from leading Brands. We further integrate third party Signage software for seamless screening. High brightness video walls are being used for many applications including Digital Signage, Auditoriums, Conference Room, We provide end to end video wall solution from LED & LCD display option and content management solution.

Digital Podium

Our Digital Podium is a complete solution for modern class room, conference room and auditorium. The smart podium is a self contained digital solution with an integrated tablet computer, with EM pen to draw/write on screen, CPU, Amplifier, speak, smart AV switch with controls and complete annotation software.

Digital Podium are extensively used for

- Conference Rooms
- Training Rooms
- Seminar Halls
- Class Rooms

Experience Zone - Sales - Services

GeM
Government
e Marketplace

Our Products & Solutions @ Gem

As owner of the National Public Procurement Portal (section 8 Company registered under the companies Act, 2013) GeM SPV builds, operates and maintains the GeM platform, which provides an end-to-end online Marketplace for Central and State Government Ministries / Departments, Central & State Public Undertakings (CPSUs & SPSUs), Autonomous institutions and Local bodies, for procurement of common use goods & services in transparent and efficient manner.

Electronics Test and Measurement Instruments

Oscilloscopes	Spectrum and Network Analyzers	Signal/Function Generators
Digital Multimeter	Logic Analyzer	Power Supplies
Vector Network Analyzer	PXIe Based Solutions	Source Measuring Unit
Insulation Tester	Designing Software	Rework Stations
Fume Extraction Unit	Soldering & Desoldering Station	Optical Spectrum Analyzer
OTDR	Ethernet Tester	SDH Tester

Information Technology

Tablets	Laptops
Digital Signage	Networking
Rugged Laptops	Workstation
Computers	Server/Storage
Multi Media Projectors	Printers
Interactive Displays	Self Service Kiosks

Agmatel provides innovative technology solutions to enable our clients to address their technology and Business needs in the following segments.

- **Defence & Paramilitary:** Defense Services, DRDO Labs, Defense manufacturing units viz. BEL, HAL, ECIL etc., Paramilitary Forces viz. BSF, CRPF, CISF, SSB, ITBP, CBI, & IB etc.
- **Education & Research** - Higher Education viz. IIT's, NIT's, Central Universities & Engineering Colleges, Research Labs Basic Education viz. KVS, NVS & K12 Schools etc.
- **Government :** - Central & State Govt. Ministries & Public Sector Units Viz. MHRD, Railways, Broadcast, Aviation, DOT, BSNL, MeitY, NPL, AAI, BHEL, EIL, GAIL, ONGC, PGCIL, SAIL, etc.
- **Industrial Market** - Manufacturing, R&D, Consumer Electronics, Embedded Design, Telecom, Automobiles Research viz. Maruti, Samsung, Honda, Nippon, LG, Dixon, Hero & Barco etc.
